

Homework #: _____

NAME: _____

Date: _____

Instructions:

- Download this answer booklet.
 - Read the instructions.
 - This first page must be submitted with your solutions.
 - Failure to submit this will result in a loss of 5 points in addition to deductions for not following instructions.
1. To get full credit you must:
- a) indicate what the equations you use represent, and why they apply
 - b) if terms in the full equations are neglected, indicate why
 - c) state any idealizations about processes
 - d) indicate how properties are evaluated, i.e., indicate table number if relevant
 - e) show units on properties and final answer
 - f) all the work for a single problem should be done in order; do not shuffle the pages
 - g) write the problem title and number at the top of the answer sheet

Failure to adhere to these instructions (a)-(g) will result in loss of up to 20% of points for the problem.

You must complete the homework and upload your work before the deadline.
